⚙️ How It Works (System Flow & Features)

1. User Books a Ride

User selects ride details and confirms booking from the app.
यूज़र ऐप से राइड डिटेल्स चुनकर बुकिंग कन्फर्म करता है।

2. Notification to Nearby Captains

All nearby captains of the selected category receive a ride request notification.
चुनी गई कैटेगरी के सभी नजदीकी ड्राइवर्स को राइड रिक्वेस्ट भेजी जाती है।

3. Loud Siren Alert for Captains

Captains receive a loud ring/siren notification to ensure quick response.
ड्राइवर्स को तेज़ सायरन/रिंग नोटिफिकेशन मिलता है ताकि तुरंत रिस्पॉन्स मिल सके।

4. First Accept, Gets the Ride

The captain who accepts the ride first gets the booking.
जो ड्राइवर सबसे पहले राइड स्वीकार करता है, उसे बुकिंग मिलती है।

5. User Confirmation Notification

User receives a normal notification once the ride is confirmed.
राइड कन्फर्म होने पर यूज़र को सामान्य नोटिफिकेशन मिलता है।

6. Captain Wallet System

Captain must have sufficient wallet balance to accept rides. If balance is zero or negative, they cannot take new orders.
ड्राइवर के वॉलेट में पर्याप्त बैलेंस होना जरूरी है। यदि बैलेंस शून्य या नेगेटिव है, तो वह नई राइड नहीं ले सकता।

7. Admin Commission System (Customizable)

Admin commission is automatically deducted from captain's wallet on ride acceptance. Commission percentage/value can be customized from admin panel.

राइड स्वीकार करते ही एडमिन कमीशन ड्राइवर के वॉलेट से कट जाता है। कमीशन को एडमिन पैनल से कस्टमाइज किया जा सकता है।

8. Admin Earnings Assurance

Admin always receives commission once the ride is confirmed.

राइड कन्फर्म होने पर एडमिन को उसका कमीशन निश्चित रूप से मिलता है।

9. Online Payment Settlement

For online payments, admin collects payment and later settles the payable amount to captains.

ऑनलाइन पेमेंट में एडमिन पैसे कलेक्ट करता है और बाद में ड्राइवर को भुगतान करता है।

10. Cash Payment Advantage

In cash (Pay After Ride), users pay directly to captains, helping admin save payment gateway charges (~2-3%).

कैश पेमेंट में यूज़र सीधे ड्राइवर को भुगतान करता है, जिससे एडमिन को पेमेंट गेटवे चार्ज (~2-3%) बचता है।

11. Wallet Recharge System (Razorpay Enabled)

Captains can recharge their wallet using UPI, cards, etc. via Razorpay.

ड्राइवर UPI, कार्ड आदि के माध्यम से Razorpay से अपना वॉलेट रिचार्ज कर सकते हैं।

12. OTP-Based Ride Start & End

Captain must verify OTP from user at ride start and end to ensure transparency and prevent extra charges.

राइड शुरू और खत्म करते समय ड्राइवर को यूज़र से OTP लेना होता है, जिससे पारदर्शिता बनी रहती है और अतिरिक्त शुल्क नहीं लिया जा सकता।
